## Register

This window appears after clicking on “Register” button at the first window (Figure 1)

In this window the user will be able to create a new account at the application configuring his email and password, there are 3 types of account with different actions each one:

- Doctor: look up page 6 for more information about the account type.
- Laboratory (*Lab*): look up page 10 for more information about the account type.
- Administration: Each administration will need to ask for a special password that we will provide due to security reasons also look up page 8 for more information about the account type.

First, the new user must indicate which type of account wants to create (if it is a doctor, a laboratory manager, or a government, Figure 2)

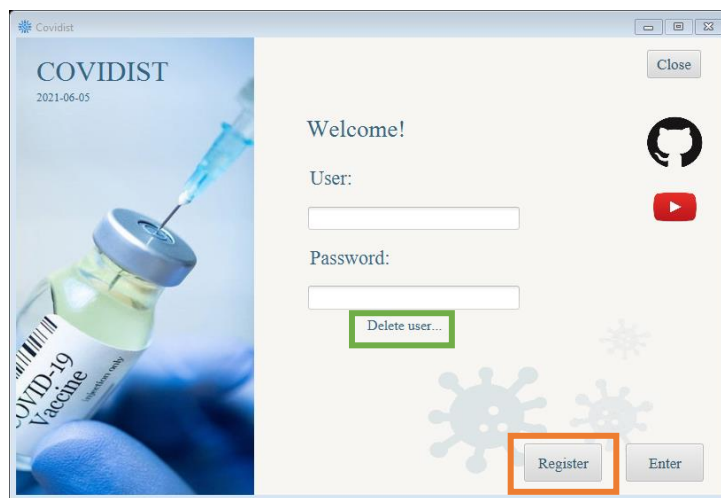

Figure 1

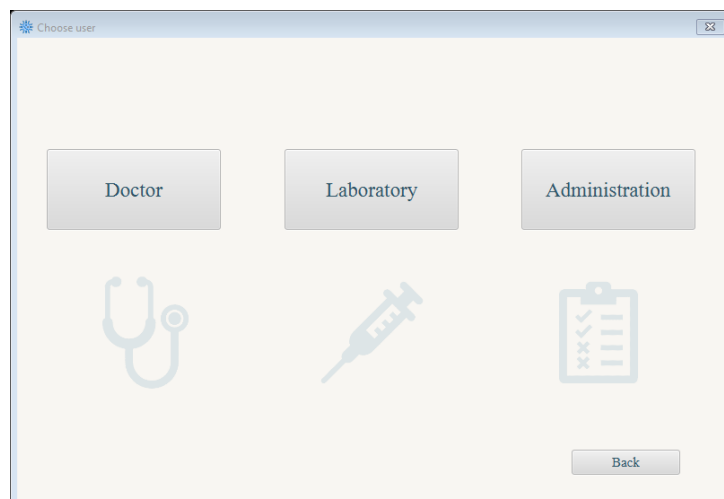

Figure 2

After selecting the account type, you must enter the basic information (including the username and the password) for the account depending on if you chose Doctor (Figure 4),

Laboratory (Figure 3) or Administration (Figure 5). At last, but not least, press the button “Create user” for finishing the process.

## Login

At the first windows (Figure 1) you can enter a user with a password if they are created also, if you click on the different images, you will get redirected to different web sites:

- Clicking on the GitHub icon (  ): you will be redirected to the git at [https://github.com/afuente9/COVID\\_APP](https://github.com/afuente9/COVID_APP)
- Clicking on the YouTube icon (  ): you will be redirected to a video resume of the whole project at <https://www.youtube.com/watch?v=jaNHJ4BVEFM&t=602s>
- Clicking on the COVID-19 vaccine image: you will be redirected to the official webpage of the project at <https://alvarodelafuentebo.wixsite.com/covidist> where you can see more information about the project.

After introducing the username and the password you will access to different menus:

- Doctor: look up page 6 for more information about the account type.
- Laboratory (*Lab*): look up page 10 for more information about the account type.
- Administration: look up page 8 for more information about the account type.

## Delete user

For deleting your user, you must click on the “Delete user” (Figure 1), then you will be asked to provide your user and password (Figure 6).

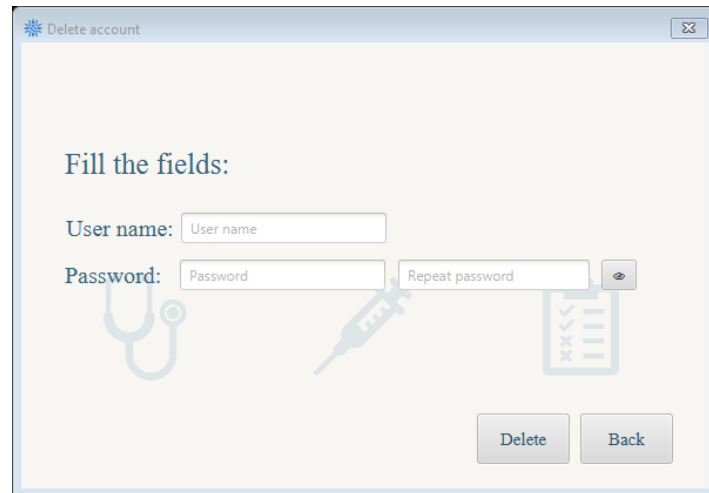

A screenshot of a web application window titled "Delete account". The window has a light blue header bar with a gear icon on the left and a close button on the right. The main content area is white and contains the text "Fill the fields:" in blue. Below this, there are three input fields: "User name:" with a text input field, "Password:" with a text input field, and "Repeat password" with a text input field and a small eye icon to its right. At the bottom right, there are two buttons: "Delete" and "Back". In the background, there are faint icons of a stethoscope, a syringe, and a checklist.

Figure 6

## Doctors

As a doctor, the user will have different options that can be chosen from the doctor's menu (Figure 7):

- Add a patient (Figure 8): for introducing a new patient in the database.
- Search or modify a patient (Figure 10): allows to look inside the database for looking for a determined patient, also you can filter and sort the patients list. For accessing to the table click on "Use the table"
- Modify the own data (Figure 9): you can modify the information about yourself from here.
- See and change the profile picture (Figure 7): the profile picture will be shown at full screen.

A screenshot of a web application window titled "Doctor menu". The window has a light blue header bar with a gear icon on the left and a close button on the right. The main content area is white and contains the text "Paula Perez" in blue, followed by "What would you like to do?". Below this, there are three buttons: "Add patient", "Search or modify patient", and "Modify my own data". On the right side, there is a vertical sidebar with two buttons: "See the picture" and "Change picture", which are highlighted by a blue rectangular box. At the bottom right, there is a button labeled "Sign out". In the background, there is a faint icon of a stethoscope.

Figure 9

## Administration

The different governments (or administrations) will have the following options in their respective menu (Figure 11):

- View the total number of vaccines owned by the government (Figure 12). Clicking on “See the info” you will be able to see the information of how many vaccines were produced, when they were produced, and which laboratory produce it.
- Trigger a simulation (Figure 15): uses the information from the patients of the government to calculate the score (View: [https://github.com/afuente9/COVID\\_APP/blob/master/Usefull Info/Score Paper.pdf](https://github.com/afuente9/COVID_APP/blob/master/Usefull Info/Score Paper.pdf)). Clicking on “Simulation” you will get the information of the patient and the score; you can generate a PDF file by clicking on “PDF report”.
- Notify used vaccines (Figure 14): for update the number of vaccines used.
- Modify user data (Figure 13): allows to modify the administration information.
